

Clancy Docwra Limited
Longham Water Treatment Works
Ringwood Road
Ferndown
Dorset
BH22 9AA

From the M27 (towards Southampton Docks, Bournemouth & Romsey)

M27 becomes A31. Enter roundabout and continue on the A31. Go through 4 roundabouts and at the 5th take the second exit to continue on the A31 signposted to the Cross Channel Ferry (this is the Ferndown bypass which is much less congested than taking the A348 through Ferndown). Go through 1 roundabout and at the next (Canford Bottom) roundabout, take the 2nd exit onto the B3073 (Ham Lane).

Follow this road for approximately 1.5 miles and go straight over the roundabout and turn right at the next double mini roundabout towards Longham.

After 600 metres you will see in front the Bournemouth and West Hampshire Water Treatment Works, just before the bridge over the River Stour. Unfortunately there is no permitted right turn here so you will need to travel over the bridge to the next roundabout approximately 800 metres and return, turning left into the works. Clancy Docwra offices are sign posted on the right.

From the West

Follow the signs on the A31 to Wimborne and Ringwood and at the Canford Bottom roundabout, take the 5th exit onto the B3073 (Ham Lane) and follow directions as above.

Directions to: South West
