

Which way do you go? There are many choices in life. Let the Clancy Docwra Apprenticeship Scheme help you take your next one

Our Utilities Apprenticeship Scheme is designed to train you to lay and repair a wide range of utility services, while at the same time, obtaining nationally recognised qualifications.

Apprenticeships are open to 16–24 year olds and are located throughout England and Scotland.

Ideally you need 3 GCSE's at grade D or above in English, Maths and one other subject.

You must be hardworking, enthusiastic, enjoy the outdoor lifestyle, thrive in a team environment and be physically fit.

Qualifications

Training is a combination of on-site experience and periods of residential college at the CITB National Construction College, you will attain:

NVQ Level 2 General Construction Operative
NVQ Level 2 Network Construction Operations (Water Services)

Selection Process

Candidate selection consists of the following:

- Aptitude Test**
- Pre-employment health assessment**
- Interviews starting in May**

Apprenticeship Scheme is to commence in September with a duration of 2 years
