

The Clancy Group Plc Policy Statement

ENVIRONMENT AND SUSTAINABILITY

Our Commitment

The Clancy Group Plc is a national construction group which builds, maintains and renews assets required to keep the essential services in the UK running.

Operating across the Civil Engineering, Energy, Multi Utility, Rail, Renewables, Developments and Water sectors. The Clancy Group Plc is committed to managing and reducing our impact on the environment by managing risks and maximising opportunities to continually improve environmental and sustainable performance.

To achieve this commitment, we will:

- Always ensure the resources are available to safeguard the environment in which we operate
- Meet and exceed environmental legislation that relates to our activities
- Operate in manner to minimise and contain the environmental impacts of our work and eliminating pollution incidents
- Minimise waste by first considering prevention, then preparation for re-use, then recycling and finally recovery during future design, construction and use
- Reduce harmful emissions to air from vehicles, equipment and processes
- Protect the environment by promoting sustainable and efficient use and conservation of water, energy and natural resources
- Maintain sound environmental performance by protecting biodiversity and ecosystems, the natural environment and both heritage and archaeological features during our works delivery
- Provide information, instruction, training and supervision to all our employees to ensure they properly discharge their environmental responsibilities and duties
- Minimise greenhouse gas emissions through the selection and use of our fleet
- Integrate sustainability principles and practices into business decisions
- Responsibly source materials and products to minimise environmental and ethical impact
- Establish smart objectives and targets to ensure continual improvement is achieved
- Ensure every decision will result in making life better for all our families, communities and the environment

Our Policy

All employees and contractors have a legal and moral duty to take reasonable care of the environment and stakeholders affected by their work. All persons shall be expected to implement this policy in their respective area of responsibility and influence.

This policy will be communicated to all persons operating under The Clancy Group control, and will be made available to interested parties.

Our Key Responsibilities

The Clancy Group Board is accountable for Environment and Sustainability matters. Its operational boards and managers are required to be responsible for environmental performance in their areas of control. The scope of our ISO14001 accreditation applies to all activities, facilities and operations within The Clancy Group Plc, and our externally provided services.

Arrangements for Environment and Sustainability are detailed in our business management system.

Our Organisation

The Board of Directors endorse this policy and shall ensure that it is implemented and communicated accordingly.

K.T. Clancy
Joint Chairman
November 2017

This Policy will be subject to periodic review

Safe. Successful. Sustainable. Secure. Skilled. Systems.
